

PROJECT STATUS REPORT

Space Mission Visual Trajectory Analysis

AS OF: 10/09/2022

PROJECT STATUS SUMMARY

Percent Complete: 7%

(The percent complete here should be the percent completion of the entire project.)

Scope	Schedule	Cost	Risks	Quality
-------	----------	------	-------	---------

This section provides a quick executive overview of the status of the project. It is intended for senior management/sponsor so it should not get too detailed. However, it should highlight anything important which should be brought to their attention. The Scope/Schedule/Cost/Quality table above is a quick way to present a color coded dashboard for the status report. Typically a variance of +/- 5% will warrant a yellow cautionary color and +/- 10% will warrant a red warning color. For any constraint which is yellow or red this section should contain brief explanation.

KEY PERFORMANCE INDICATORS (KPI's)

Many executives turn right to this section as it provides a clear summary of the status of the project according the progress metrics. You should limit the metrics displayed to the most important. You want to avoid providing the same information in different formats. Fewer is better.
